

Project Management Certificate

Ready to enroll?

James Madison University's Project Management Certificate has two formats:

Classroom program that meets in Harrisonburg.

Online format that includes live instructor-led sessions and self-paced assignments.

You can complete the program in less than **one month**.

The cost of the program is **\$2200**. Discounts available for organizations enrolling multiple students.

Please call **(540) 908-4578** for more information on how we can work together.

Project Management Training

The project management program is an in-depth, interactive learning experience based on real-life project management methodologies and experiences, so that you can apply your training directly to real-world examples.

Program Focus Areas

- Initiating a Project
- Planning a Project
- Developing and Managing Cost Estimates and Budgets
- Planning Quality, Staffing and Communication
- Analyzing Risks and Planning Risk Responses
- Executing, Managing and Controlling Project Work
- Closing Project Work

There are numerous benefits to earning your project management certificate, including:

- 1.) Understanding the project management process
- 2.) Providing organizational context to your work
- 3.) Adapting a multi-method approach to completing tasks
- 4.) Providing organizational value to your company

Project Management Certificate
